PORTUGAL SELECTS WX SYSTEMS FOR ADVANCED R-NAV TRAINING

Date: 30th June 2003.

NAV E.P., the air traffic service provider for Portugal, has selected Wx Systems to provide intensive Advanced R-NAV training to executives from their organisation. Mr. Mario Neto, the Head of the Airspace and Procedures Branch, located at Lisbon Airport, confirmed the contract with Wx Systems Chief Executive Officer Patrick Aisher after discussions earlier in the month. “The growing importance of R-NAV within the Procedures Design sector has been recognised by many of our customers, and we are delighted that a multiple-license user such as NAV E.P. has come to us to provide this critical Training”, said Aisher.
